Cooper's New Discovery

Puts the Stomach in Order

Americans are prone to neglect their stomachs. They eat too fast, work too fast, live too fast, and are generally a "bunch of nerves." Something gives way—generally the stomach—then follows nervous indigestion, kidney or stomach trouble and many other allments.

When the stomach is out of order the most common complaint is a tired, droopy, half-sick condition. The victims lack energy and ambition, have irregular appetites and feel languid and tired all the time. Cooper's New Discovery will tone up a run-down, overworked stomach, strengthen the nervous system and restore the stomach to a healthy condition.

Makes Digestion Easy

Many people suffer great pain from indigestion. Food lays heavily upon the stomach where it ferments, forms gas and causes great distress. When the digestive organs get out of order the blood becomes impure and the heart is apt to be unfavorably affected. Cooper's New Discovery makes digestion easy and enables you to eat what you please without any bad after effects.

Builds Up the System

Cooper's New Discovery rids the body of all poisons, excessive acid and stomach gas and helps the stomach to perform its duty so perfectly that every particle of food aids in nourishing the body and giving tone and strength to the entire system. It brings the bloom of health to the cheeks of the sickly and run-down.

Cooper's New Discovery

Is the best tonic and blood purifier on the market. It is purely a herbal preparation and is nature's own remedy. It makes rich, red, healthy blood, and contains all the ingredients necessary to give vim, vigor and energy to the system.
